

pür·spirits company profile

pür·spirits brings you the finest offerings of the centuries-old artisan distilleries of Europe. We will continue to introduce to the US spirits that are novel in their quality and distinctiveness. No shortcuts, no compromises. We offer craft distilled spirits made according to traditional methods that surpass expectations.

Our beverages are a distinctive part of some dazzling cocktails www.purspirits.com. But for the uninitiated, the best way to get intimately acquainted with **pür·spirits** liqueurs and “geists” is to savor them straight-up, at room temperature.

When you do, you just might forget everything you knew about liqueur. **pür·spirits** liqueurs are balanced and sophisticated. They have at their heart the finest and freshest fruit, flowers, berries, herbs and spices. They are the product of extraordinary sensory talent and appeal to a broad range of palates.

pür·spirits berry flavored vodkas are, in fact, authentic German “geists.” As such, they gain their complex aromas by virtue of time-honored recipes and distilled fresh berries. There are no other flavoring ingredients.

pür·spirits is also dedicated to introducing spirituous beverages that are unique or rare on US shores. For example, **pür·geist bierbrand** is a distillation of craft-brewed German Märzen beer that is aged in a chestnut cask. The result is on the lighter side of, but akin to, whiskey – but it rightly occupies a category all its own.
